CIRCULAR TO THE TRADE.

In presenting our catalogue of Stoves, Hot Air Furnaces, Hollow Ware, &c., for 1868, we invite the particular attention of dealers to *our new patterns, which consist of nine distinct varieties*, which, with our former assortment, present a line of samples almost unequalled for beauty and completeness.

Our prices this season are low, and we wish it to be distinctly understood that we shall not be undersold by any respectable manufacturer.

It is very desirable that orders *should be given early*. Those who delay until their season for selling has commenced must not complain if they are disappointed in not having them promptly filled.

THE ORIENTAL BASE BURNER.

It is quite unnecessary to commend this celebrated Stove ; the public do that for us, and without a dissenting voice. It is admitted by all that it occupies the first rank, and it is our intention that it shall continue to do so, and to that end we have introduced into a portion of this season's manufacture a simple and convenient arrangement for

BAKING AND BOILING, AND FOR HEATING IRONS.

This makes the Stove complete for every variety of use.

By the adaptation of Duncklee's Steaming Apparatus, an entire dinner of soup, meat, vegetables in variety, and pastry, can be prepared neatly and elegantly without recourse to the kitchen stove.

THE ORIENTAL BASE BURNING PARLOR FURNACE

Has been entirely reconstructed since the last year, and wonderfully improved in many particulars.

It is now adapted to the wants of two classes of people :

1st. Those who wish to retain the largest portion of the heat in the room where the Furnace stands ; as, for example, when it is desired to place it in a parlor, and with the surplus heat warm a chamber above.

2d. Those who wish to throw the largest portion into an upper room ; as, for example, when it is desired to place the Furnace in a basement dining room, and to heat the parlors above with the same.

THE ORIENTAL BASE BURNING HOT AIR FURNACES

Are a perfect success. They combine everything that is desirable in a construction for warming Private Dwellings, Churches and other Public Buildings.

We are desirous of arranging with one good house in each place for their sale.

THE DICTATOR COOKING STOVE

Has gained in public favor more rapidly than any pattern in market. *It has the most Iron in it, and, therefore, is the most durable and satisfactory. Combining all the modern improvements that are desirable, with its perfect finish, a genuine first class Stove is produced.*

For descriptions of the various other patterns of Cooking and Heating Stoves, we refer you to their appropriate pages in this circular.

PAMPHLETS, HAND BILLS AND POSTERS.

We furnish them, descriptive of the Oriental Stoves and Furnaces and of the Dictator Stoves, in almost unlimited quantities to our customers.

We print their respective names and residences on the same, by which they become one of the cheapest and most effective mediums of advertising. We only ask our customers to pay the expressage, *and to take the trouble to have them promptly and widely distributed.*

The Posters, if put up in conspicuous places, are read by every one, and cannot fail to influence a large amount of trade.

LITHOGRAPHS.

We have had prepared by the MAJORS & KNAPP Co., in the city of New York, the most elegant and elaborate Lithograph of Stoves and Furnaces that has ever been made. It is mainly for the purpose of advertising the Oriental and Dictator Stoves and the Oriental Furnaces. Those of our customers who have the sale of these will each be furnished with a sufficient number of copies neatly framed and glazed, and with their respective names and residences printed in large and clear type on the same. These sheets will be 22 x 28 inches in size, and will make a most elegant and effective means of advertising. It is desirable that the street and number should be stated in all cases where such exist, and to that end we shall be glad to have all dealers who desire to have these Lithographs, give us early notice in these particulars.

TERMS.

Four months credit for approved notes, payable at Bank in New York funds, or five per cent discount for cash paid within fifteen days from date of invoice.

PERRY & CO.,
ORIENTAL STOVE WORKS.

SPECIAL NOTICE.

After fifteen years of labor and cost to introduce the base burning principle, our efforts have been crowned with perfect success. Probably no Stove has ever been made that attained such a hold upon the public as the ORIENTAL has done. The sale has been unprecedented, and the future promises to increase it many fold.

Several members of the trade are jealous of our success, and utterly disregarding our rights, are manufacturing and selling stoves which directly infringe upon the following named patents which we control, wholly or in part, and this, too, in defiance of the warnings which we have given them. They say, "*We don't care anything about your rights; we want to make the Stores, and we will make them.*"

We have commenced two suits against Jasper Van Wormer and others, for infringements upon these patents, and we hereby give notice that all persons who shall thus trespass on our rights, by manufacturing, selling or using Stoves or Furnaces made in accordance with them, or any of them, in territory belonging to us, will be held responsible by us for the profits on the same, and for damages that may accrue thereby viz.:

Patent granted to Samuel B. Sexton, April 19, 1859.

Reissued Feb. 12, 1867.

" " Dennis G. Littlefield June 25, 1861.

Reissued Aug. 4, 1863.

" " " Dec. 9, 1862.

Reissued May 14, 1867.

" " " Aug. 18, 1863.

Reissued Feb. 25, 1868.

" " " April 18, 1866.

" " " April 21, 1868.

" " James Gray Oct. 18, 1864.

" " " Jan. 7, 1868.

" " R. Z. Liddle, Nov. 26, 1867.

Those persons who shall disregard this warning, plainly and publicly given, must not complain when proceedings are commenced against them.

ALBANY, May 15, 1868.

PERRY & CO.

SHEET IRON.

No. 14	16	18
\$75.	About \$100.	\$125.

per cent discount to the trade.

The New and Improved Heat Radiator.

(Patented by PATTERSON & NORTHUP, January 30, 1866, and March 31, 1868.)

These Radiators can be attached to the brick set Furnaces when desired. We think it is the best construction of the kind that has yet been made. By examining the cut it will be seen that the products of combustion descend in the ten small pipes, and ascend in the one large pipe; the latter has no connection with the upper drum.

We have had one in use for some time, and will state the practical results, without trying to explain the philosophy of the operation. We have found that when the upper drum and the upper portion of the pipes are *very hot*, the base of same, and the central discharge pipe and the smoke pipe beyond, are *comparatively cool*, thus showing that but a small amount of heat is lost into the chimney; and if not thus lost, it must of course be radiated into the chamber, and from thence discharged through the registers into the apartments above. Thus we believe that the fixture will save twenty-five per cent in the amount of fuel. We hope that our customers will give it attention.

PERRY & CO.
ALBANY, N. Y.

THE IMPROVED
Oriental Base Burning Hot Air Parlor Furnace,
FOR ANTHRACITE COAL AND COKE.

Patented by Samuel B. Sexton April 19, 1859; reissued Feb. 12, 1867; and by Dennis G. Littlefield Dec. 9, 1862; reissued May 14, 1867; Aug. 18, 1863; reissued Feb. 25, 1868; patented April 18, 1866; April 21, 1868; and by James Gray, Oct. 18, 1864, and Jan. 7, 1868.

No. 12, patterns of 1867,	\$45 00
" 13, " "	53 00
" 14, " "	60 00
" 16, " "	
" 18, " "	

Construction marked A is arranged to throw out the most heat in the room where it stands.

Construction marked B is arranged to send the most heat to the room above.

Warming Closets, with slides,.....	3 50	4 00	4 50	6 00

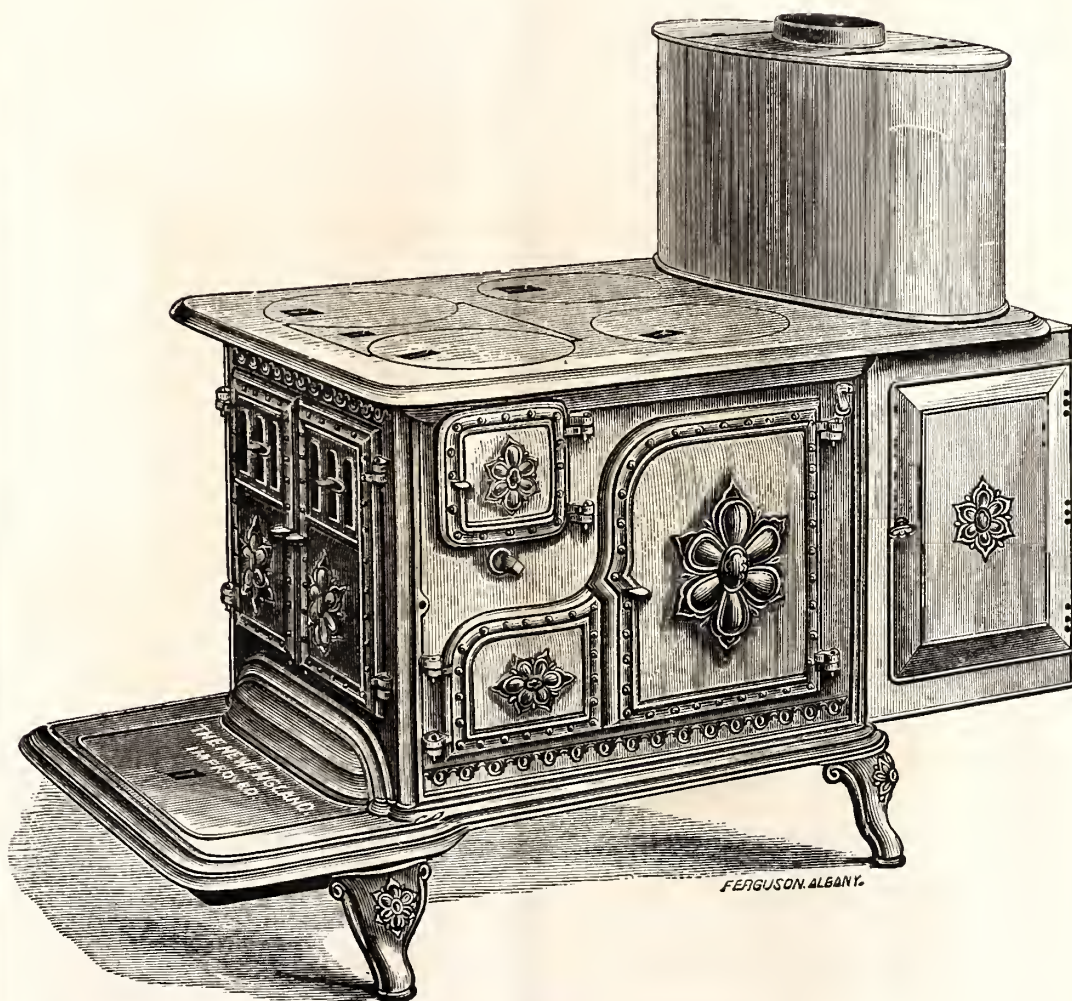

The Improved New England Cooking Stove.

WITH SQUARE TOP. (For Coal or Wood.)

No. 8, with griddle and gridiron (for coal),.....	\$18 00
“ 9, “ “ “ “	21 00

The wood fixtures are extra.

This Stove is an improvement on the “New England Air Tight,” manufactured by the old firm of Treadwell & Perry, and which was so universally popular ten to twenty years since. No higher compliment can be paid to that celebrated Stove than to mention that we are even at this late day supplying repairs for it. Hundreds and thousands of them have been in use for twenty years, and are yet serviceable.

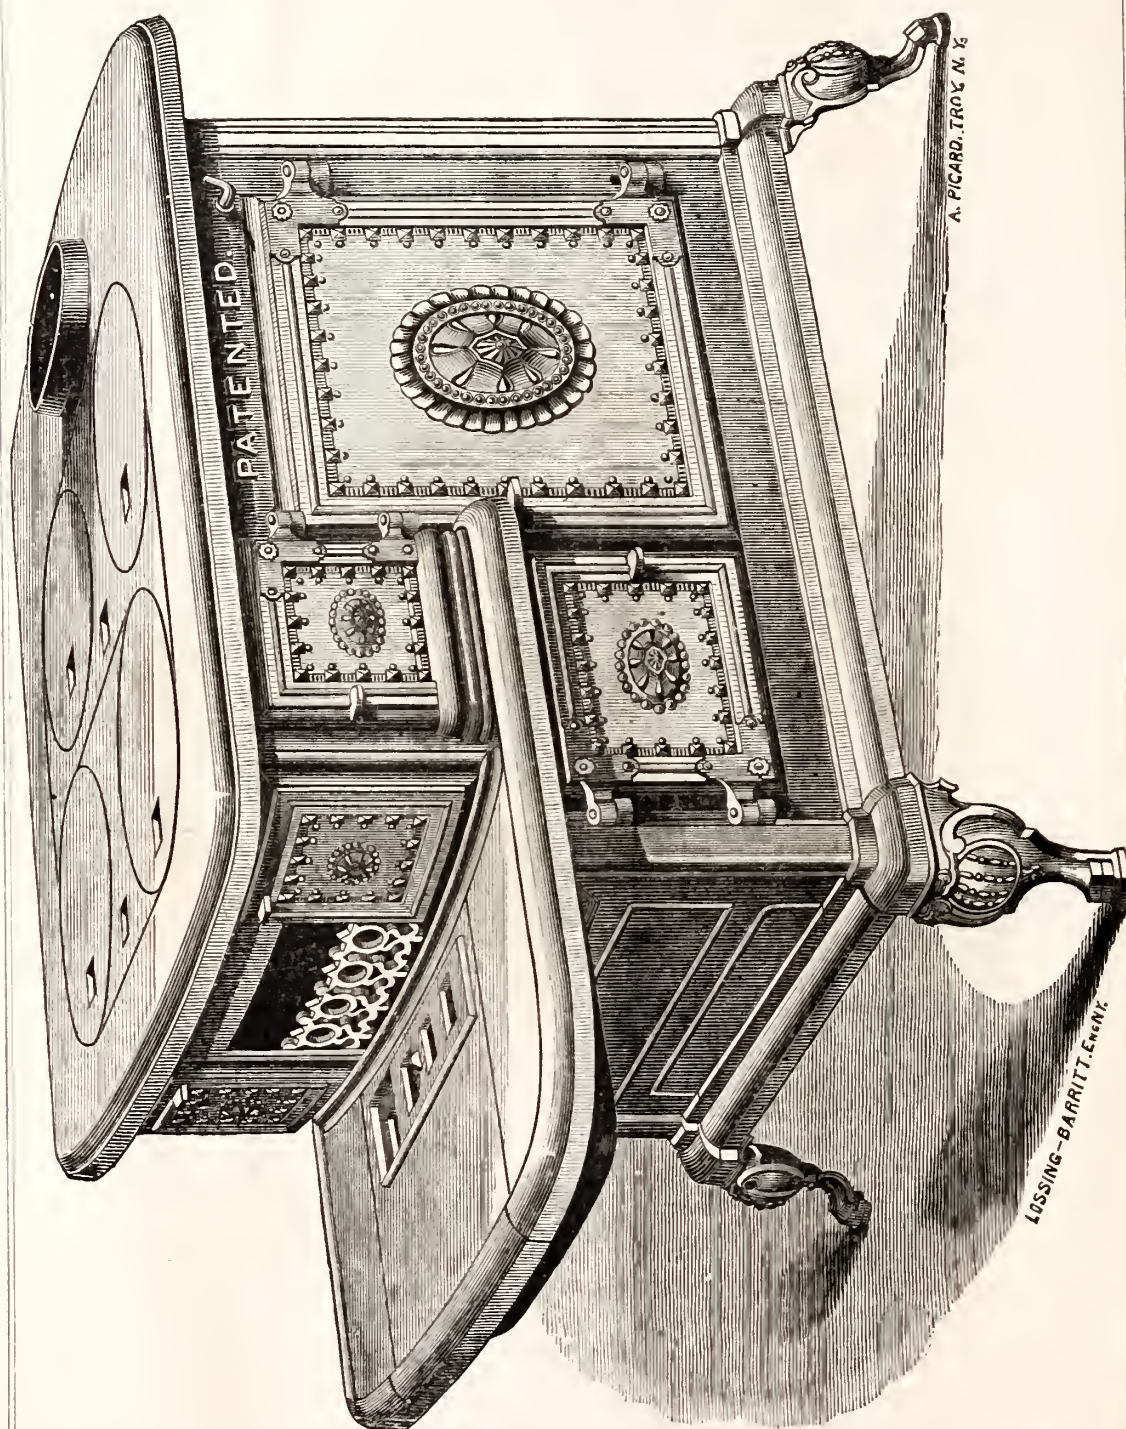

The Improved New England Cooking Stove,

WITH EXTENSION TOP. (For Coal or Wood.)

No. 8, with griddle and gridiron (for coal),.....	\$19 00
“ 9, “ “ “ “	22 00

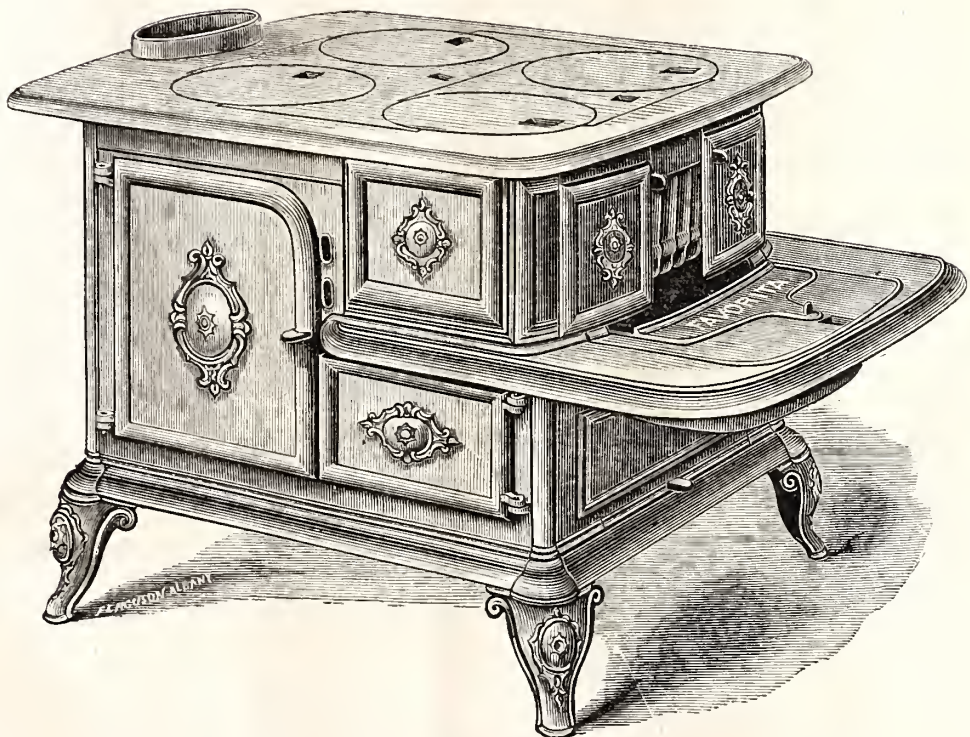

The wood fixtures are extra.

	8	9
Copper Reservoirs, covered with tin jackets,.....	\$9 00	\$10 00
Warming closets, with slides,.....	4 00	4 50

The Knickerbocker Large Oven Cooking Stove. (For wood.)

	Nos. 7,	8,	9.
Square top,	\$14 00	\$17 00	\$20 00
Extension top,	15 00	18 00	21 00

The Favorita Large Oven Cooking Stove,

FOR WOOD.

No. 8, with griddle and gridiron,.....	\$14 00
“ 9, “ “	17 00

This is also a full sized Stove, and a pattern that has given universal satisfaction. It is the cheapest full oven stove in the market.

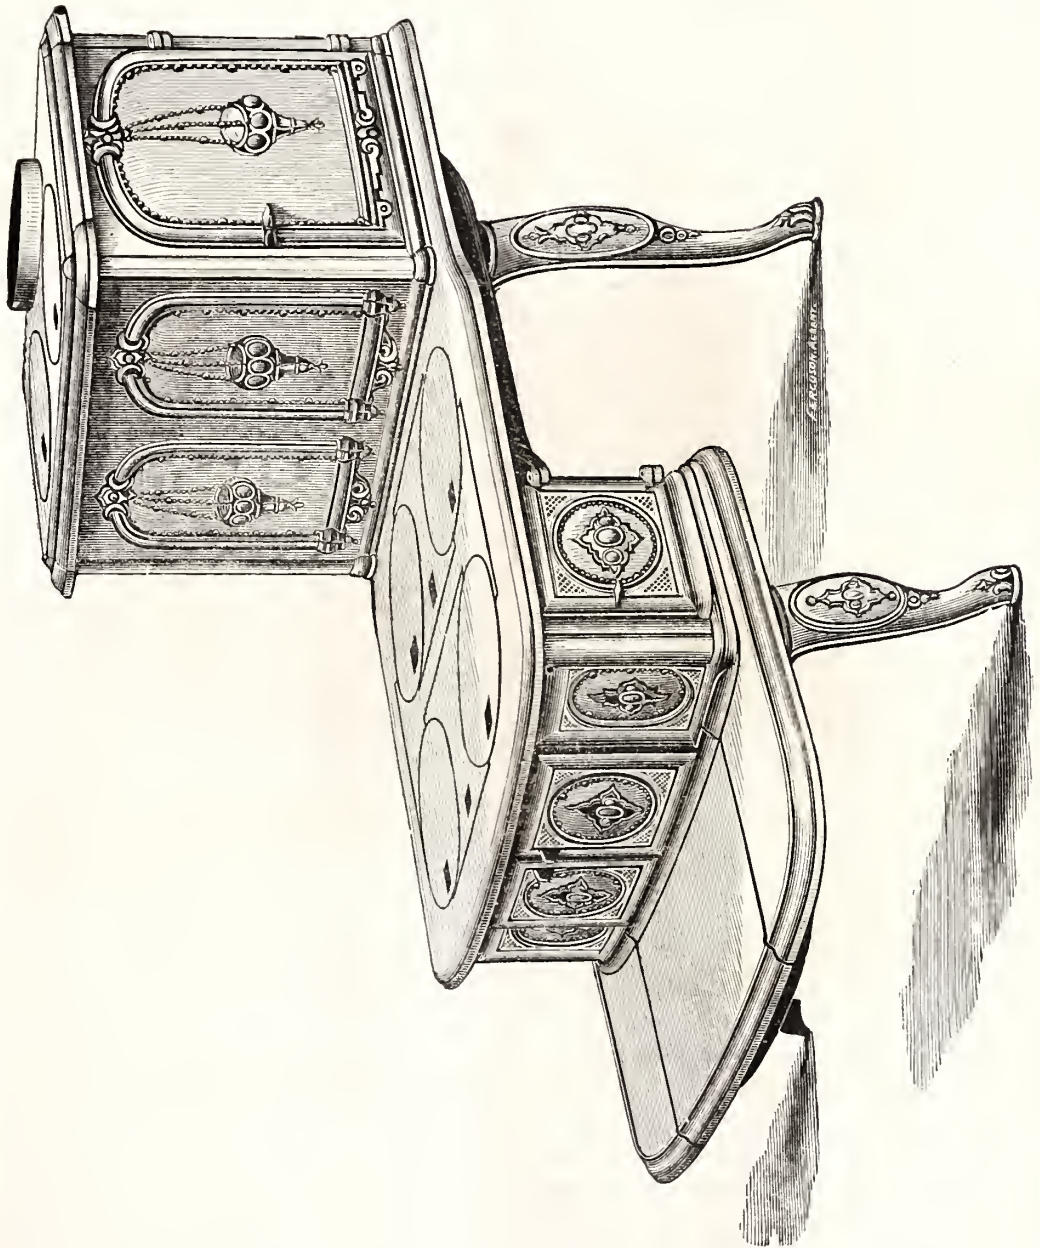

The Cultivator Large Oven Cooking Stove,

FOR WOOD.

No. 7, with griddle,	\$10 00
" 8, "	12 00
" 9, "	14 00

This is the lowest price large oven Stove in the market. It is a neat pattern, well fitted, and gives good satisfaction to buyers. WE SHALL NOT BE UNDERSOLD ON THIS STOVE. THOSE WHO ARE IN WANT OF A VERY CHEAP STOVE WILL EXAMINE THE CULTIVATOR.

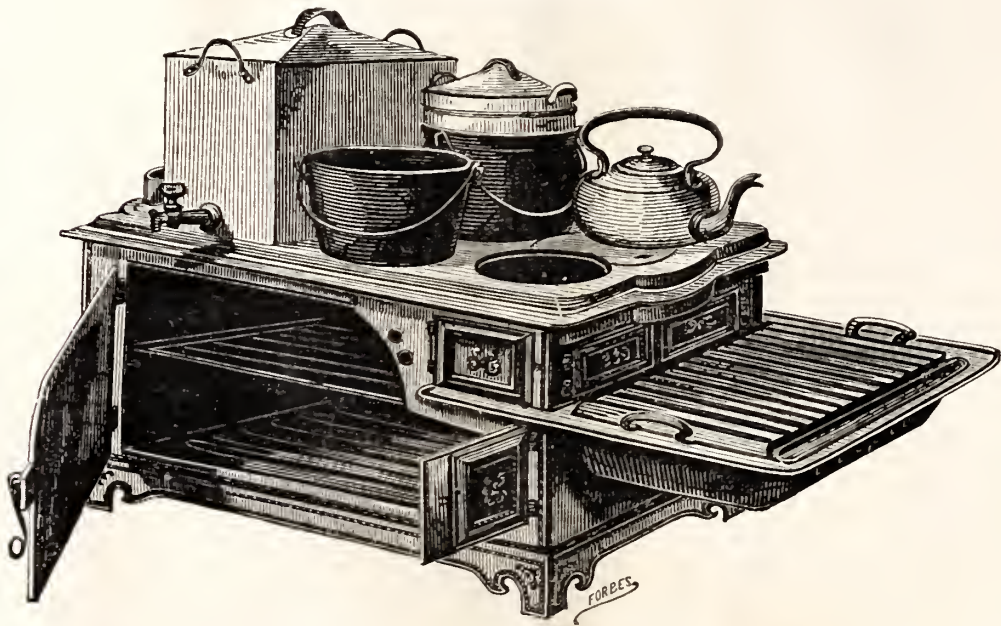

The "Hemisphere" Elevated Oven Cooking Stove,
FOR WOOD.

No. 7, with griddle and gridiron,.....	\$12 00
" 8, " "	14 00
" 9, " "	17 00

No. 7 is the WEST WIND pattern.

This is a substantial and excellent Stove. *We shall not be undersold on it.*

The "Great Western," Hotel Stove,

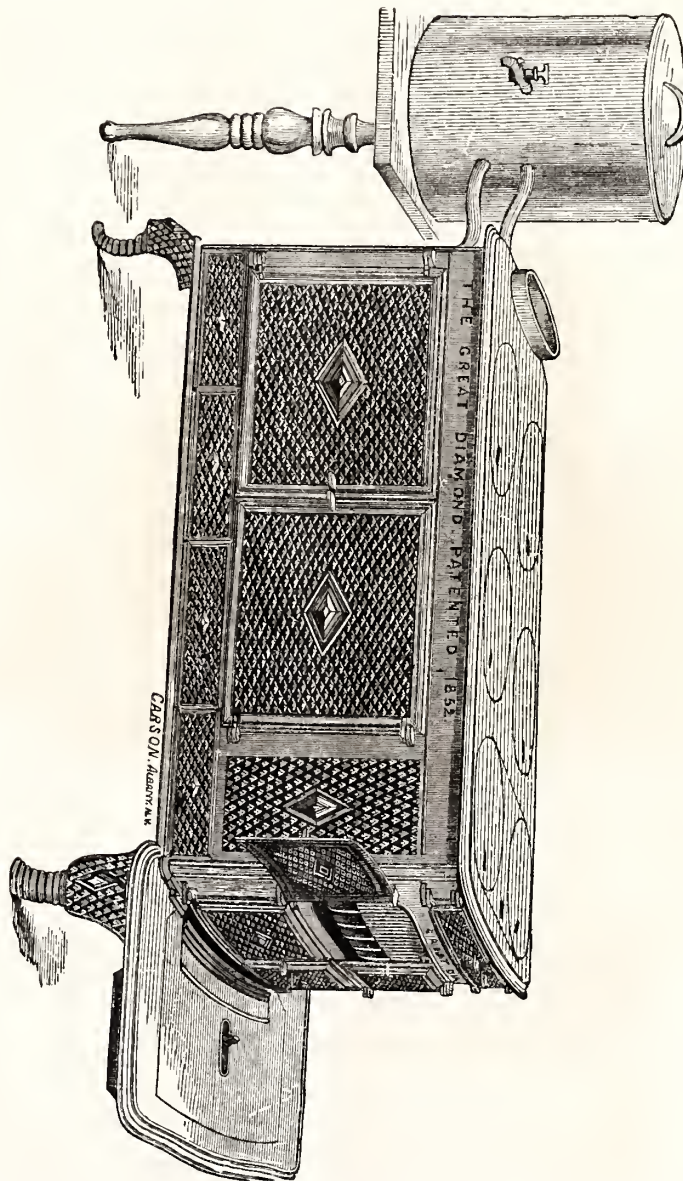

FOR WOOD OR COAL.

No. 7, with griddle and gridiron,..... \$60 00

Six 11-inch boiler holes.

This cut is a very poor representation of the Stove.

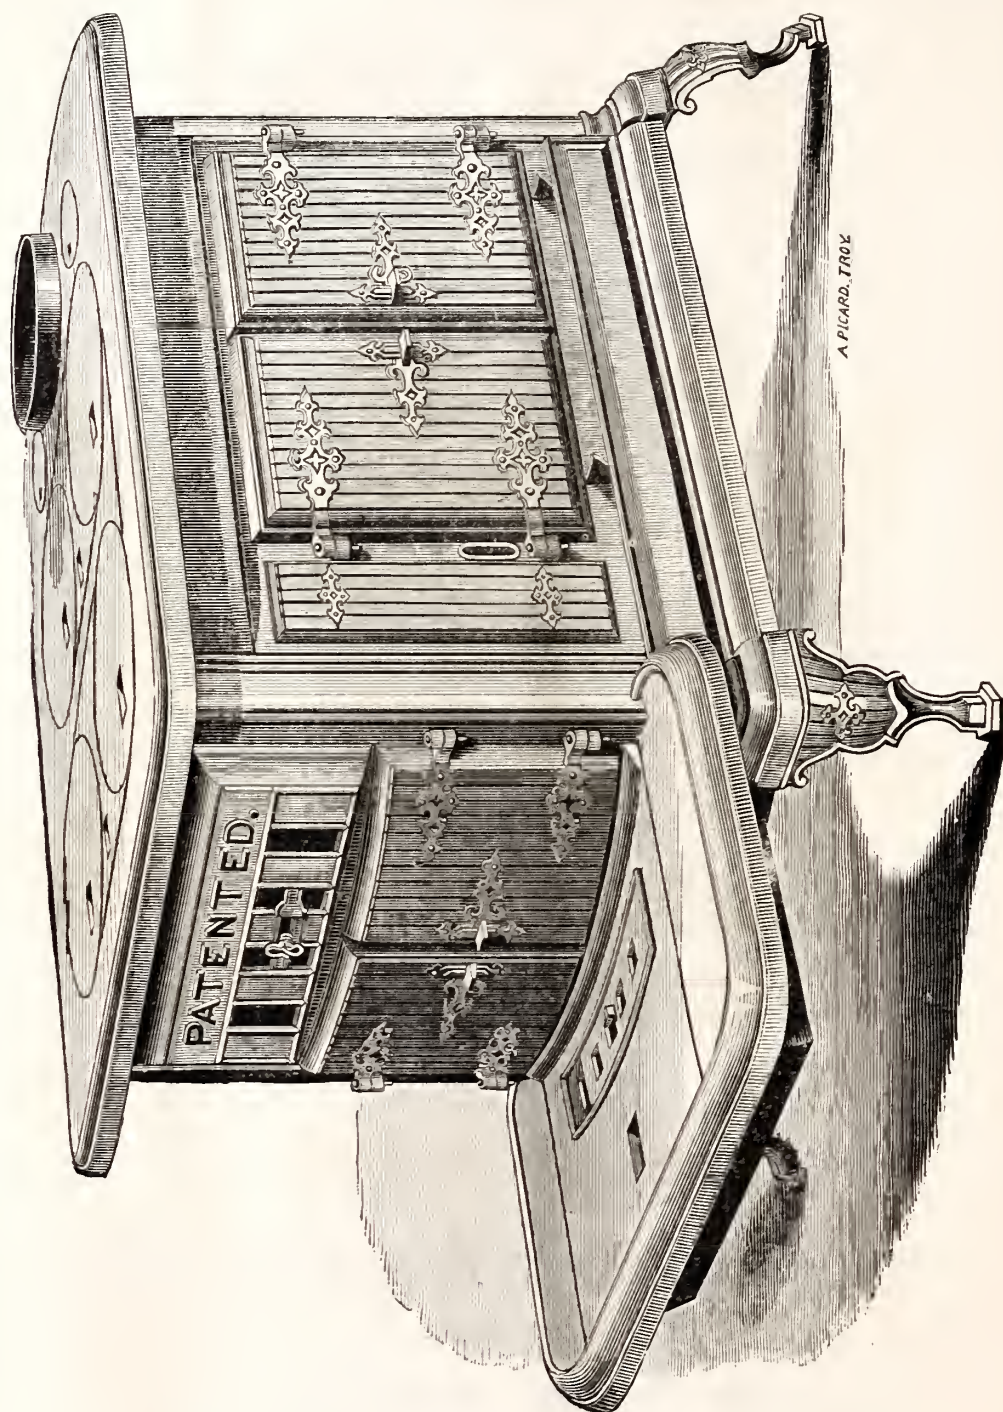

For more than twenty years it has been sold in large numbers, and we can say that not one fault has ever been charged against it.

The "Great Diamond," Hotel Cooking Stove,
FOR COAL.

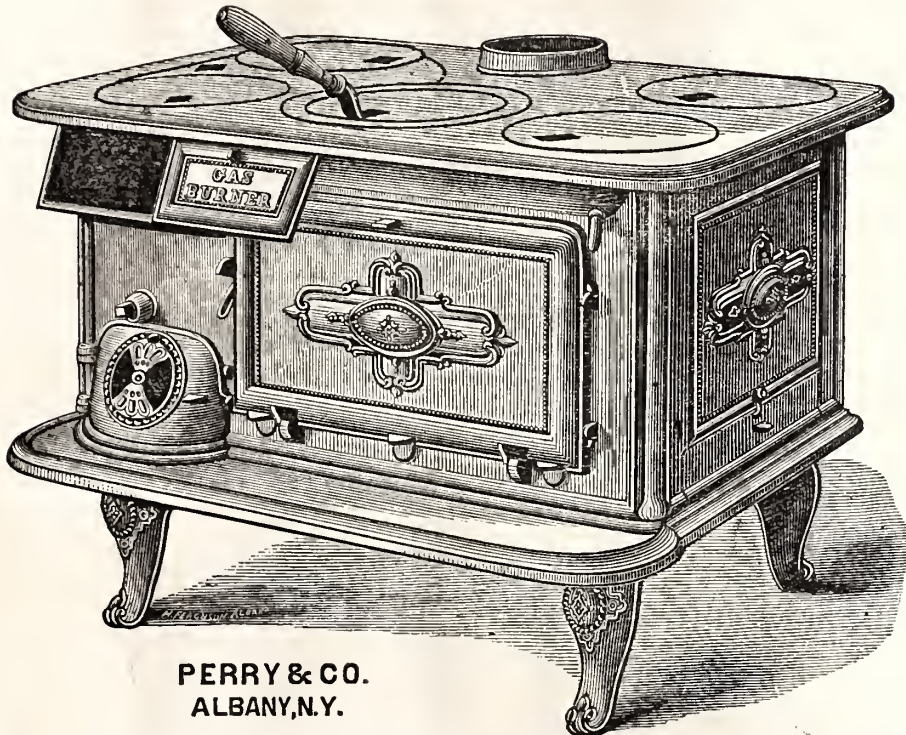

No. 11, with griddle and gridiron, for coal,..... \$63 00
Six 11-inch boiler holes. Water tank not included.

This has ever been a favorite Stove with Hotel Keepers. It is heavy and durable, and will do more work than a Range, and with half the coal.

The "Co-operator," Cooking Stove,
FOR COAL OR WOOD.

Price, with griddle and gridiron.—No. 7, \$14; No. 8, \$16; No. 9, \$18.
The wood fixtures are extra.

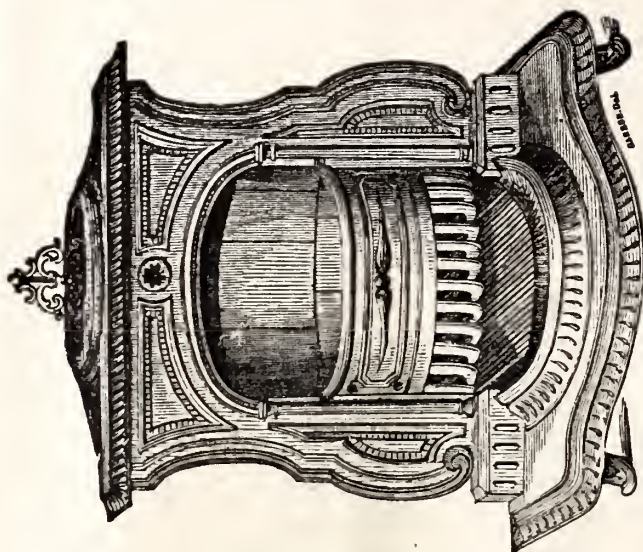

PERRY & CO.
ALBANY, N.Y.

The Gas Burner Range,

FOR COAL.

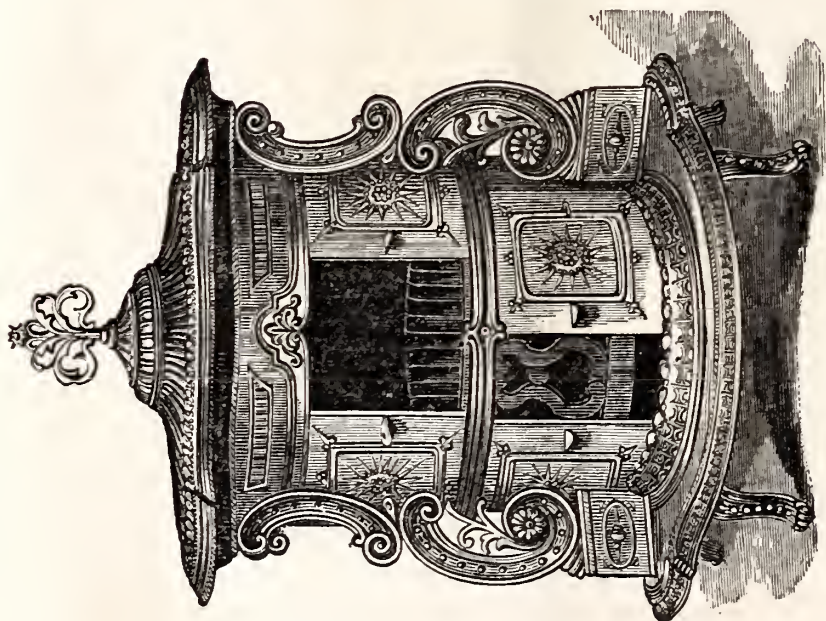

No. 6, 5 holes,	\$9 00
" 7, "	11 00
" 8, "	14 00

This is a substantial, well made and popular Range, which we offer at prices below the market. They give universal satisfaction.

The Franklin Coal Burner.

No. 2, made up complete,	\$6 00
" 3, "	8 00
" 4, "	10 00
" 5, "	12 00

The "Violet" Franklin Coal Burner.

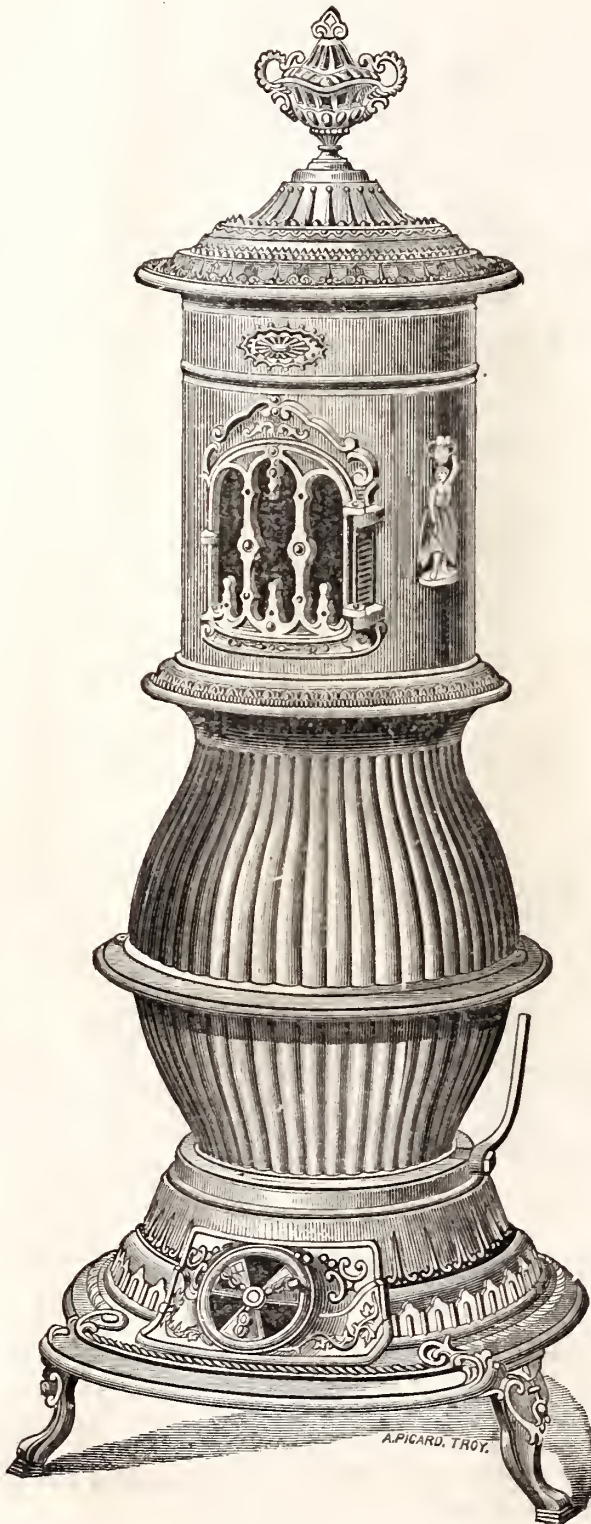

No. 3, with sliding doors,	\$7 00
" 4, "	9 50
" 5, "	12 00

The "Aurora" Gas Burner,
FOR COAL.

No. 10, set of castings about,.....	\$3 50
" 11, " "	4 00
" 12, " "	5 25
" 14, " "	6 50

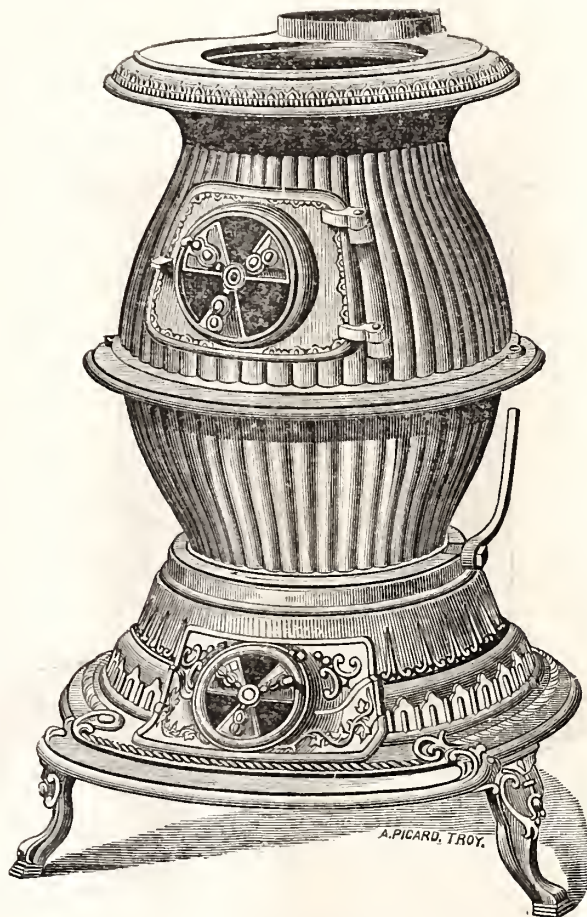

This is a new and elegant pattern, and one of the cheapest in the market.
We confidently recommend it to the trade.

The Russian Coal Burner.

No. 10, set of castings about	\$5 00
" 11, "	6 00
" 12, "	7 50
" 14, "	10 00

This is also a new pattern the present season. It is heavy, and a regular "salamander" for giving heat. It cannot fail to be one of the most popular of its class.

The New Globe.

No. 10,.....	About \$4 75
" 11,.....	" 5 75
" 12,.....	" 7 00.
" 14,.....	" 9 50

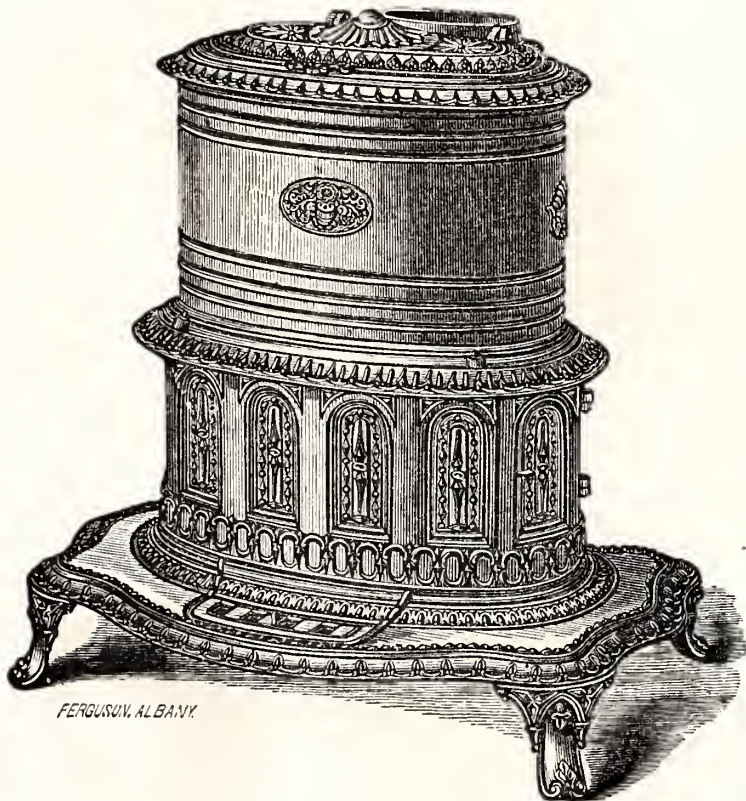

This is a new and substantial pattern for use in exposed situations where an intense heat is required. It is an improvement over the old patterns of Globes.

The Vestal Tops and Bases,

FOR WOOD.

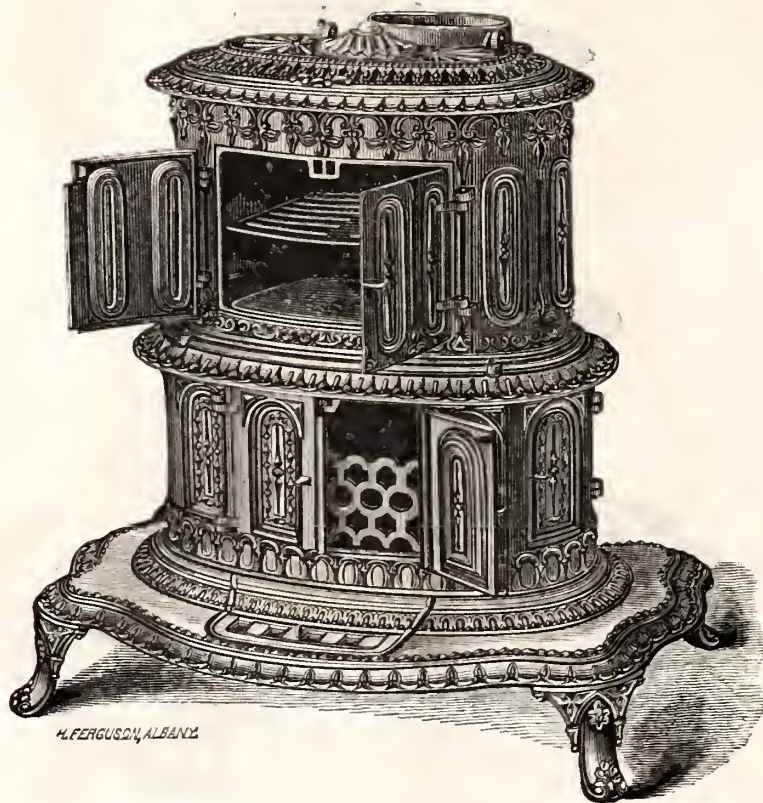

No. 15, per set,	\$2 50
" 18, "	3 50
" 21, "	4 50
" 24, "	5 50

The Vestal Cottage Parlor,

FOR WOOD.

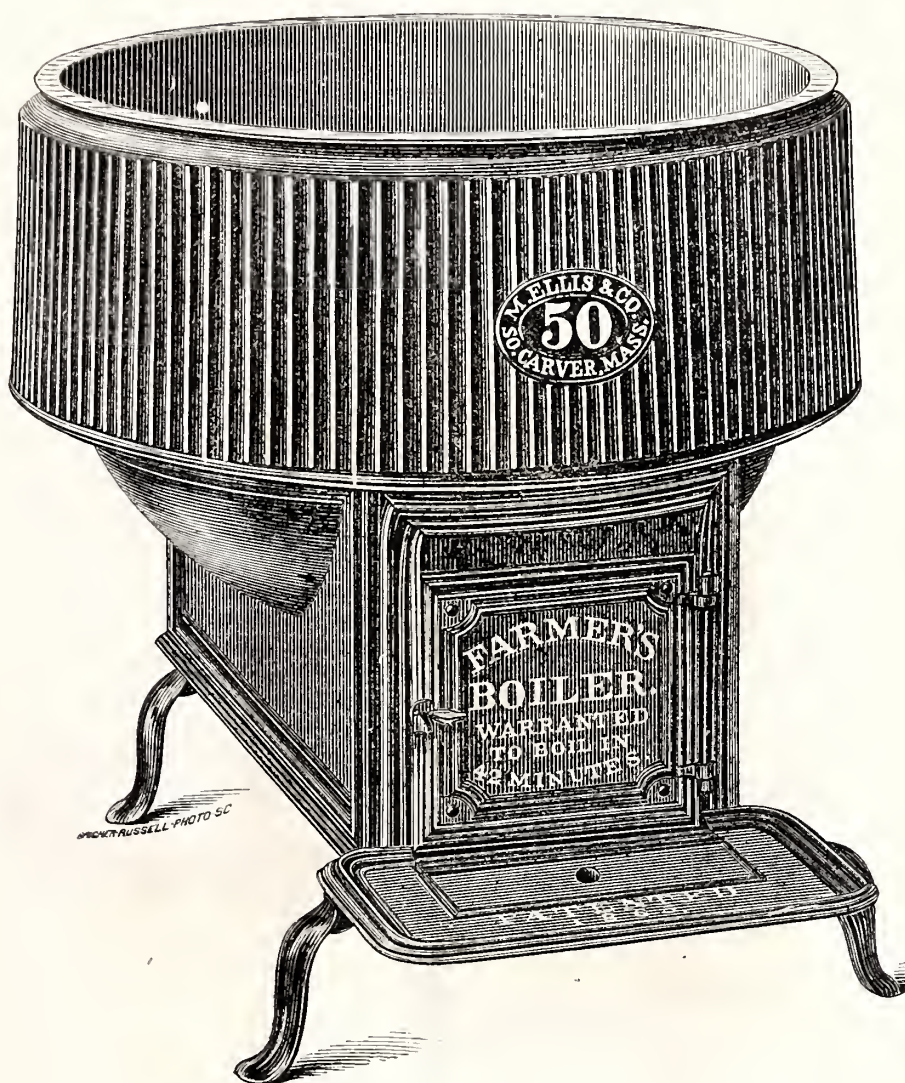

No. 15, per set,	\$3 50
" 18, "	4 50
" 21, "	5 50
" 24, "	7 00

The Vestal Parlor Cook,

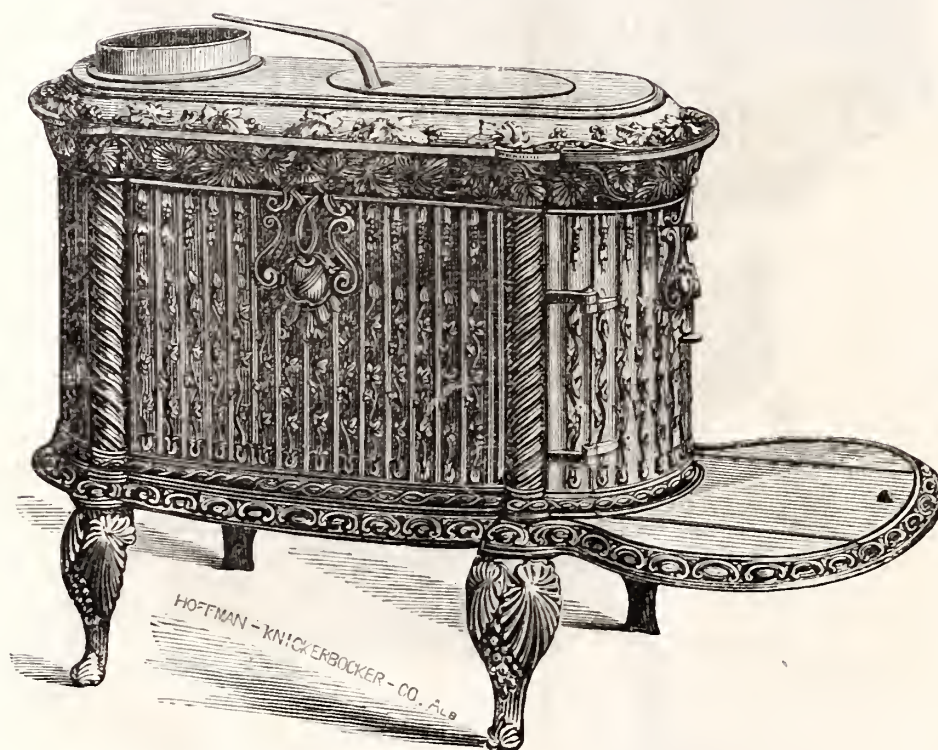

FOR WOOD.
